SELECTED PROJECTS

- 01

Customer Portal - PT Semen Indonesia Logistik

DevOps & Fullstack Developer · Capstone project

Full-stack customer portal spanning frontend, backend, database, and infrastructure. Work included API integration, authentication, service integration, deployment, and Linux server configuration.

TECH Go, Gin, Next.js, TypeScript, PostgreSQL, Redis, Docker, Linux, MinIO, Reverse Proxy
- 02

Course Recommendation System

Knowledge-Based System · Academic project

Course recommendations using RAG and LLM components, with transcript handling, curriculum data, vector search, retrieval, and system integration.

TECH RAG, LLM, Python, PostgreSQL, Qdrant
- 03

Hotel Booking Web Application

Full-stack web application

Hotel booking with authentication, role-based access control, admin/user workflows, booking management, and relational database design.

TECH Full-Stack Web, Authentication, RBAC, SQL, Database Design
- 04

Web Application Security Analysis

Application security · Academic project

White-box penetration testing and static source-code analysis, followed by security log analysis and structured reporting.

TECH Web Security, White-box Testing, Static Analysis, Security Log Analysis

Technical range

SOFTWARE ENGINEERING / EDUCATION / RECOGNITION

TECHNICAL SKILLS

Software development	Go, Python, Java, C/C++, JavaScript, TypeScript, HTML, CSS
Backend	Gin, REST API, PostgreSQL, SQL, Redis
Frontend	Next.js, React, HTML, CSS, JavaScript
DevOps & systems	Docker, Docker Compose, Linux, Git, CI/CD, Reverse Proxy
AI & data	Machine Learning, Data Mining, RAG, LLM, Qdrant
Cybersecurity	Web Application Security, White-box Testing, Vulnerability Analysis, Wazuh

EDUCATION

2023 - Present	Institut Teknologi Sepuluh Nopember Bachelor of Informatics Engineering GPA: 3.50 / 4.00
----------------	---

COURSEWORK	Data Structures, Database Systems, Object-Oriented Programming, Operating Systems, Computer Networks, Web Programming, Software Design, Machine Learning, Data Mining, Information Security
------------	---

RECOGNITION & CERTIFICATIONS

RECOGNITION	2nd Place - Data Mining Competition, Quadrathlon, Informatics Engineering ITS Best Algorithm Award, Intelligent Computing and Vision Lab Final Project
AWS ACADEMY	Machine Learning, AI Foundations, Data Engineering, Security Foundations
PALO ALTO NETWORKS	CyberOps, Security Foundations
